WORK

User Experience Designer

ARISTOTLE INTERNATIONAL

July 2011 - present

I am responsible for the user experience and visual design of Aristotle's large web software suite. I manage the development team's efforts to build attractive and usable interfaces with that latest web technologies, including jQuery, HTML5, and CSS3.

Web/Graphic Designer

KAULKIN GINSBERG

2011

I aided the marketing and advertising department in the development and implementation of websites and other interactive online materials.

Freelance Designer/Developer

2010-2011

As a freelancer, I designed and developed websites and other web collateral for a range of clients. Usage of the latest web technologies and cross-browser compatibility were areas of focus.
